STATE TREASURER
INSURANCE COMMISSIONER
FIRE MARSHAL

State of

Florida

Department of Insurance and Treasurer

THE CAPITOL
TALLAHASSEE 32301

July 1, 1985

The Honorable Bob Graham
Governor of Florida
Capitol
Tallahassee, Florida 32301

My dear Governor:

As Insurance Commissioner of the State of Florida, I am pleased to submit to you my Annual Report on Insurance in the State for the fiscal year July 1, 1984 to June 30, 1985 as provided for in Chapters 624.313 and 624.315, Florida Statutes. The figures in this Report reflect the financial condition and the importance of the insurance industry in our State. The statistics in this Report are compiled from the December 31, 1984 Annual Statements filed with this Department by insurance companies licensed in the State.

Respectfully submitted,

Bill Gunter

Bill Gunter

Report by Insurance Commissioner Bill Gunter

The Department of Insurance entered the 1985 legislative session armed with an ambitious slate of proposals enhancing its ability to regulate the insurance industry and protect the interests of policyholders. In the waning days of the session, the Department succeeded in scoring a number of important victories for Florida's consumers, including the passage of a landmark bill to help ensure insurance company solvency and another that will protect the financial health of health maintenance organizations.

INSURANCE COMPANY SOLVENCY

The cornerstone of the Department's insurance-related legislation was SB 973, which will help the Department better monitor the financial health of insurance companies by requiring insurers to file independent CPA audits of their assets and liabilities, in addition to their annual statements. This law, which takes effect Oct. 1, 1985, increases the surplus, capitalization and deposit requirements of domestic insurers, in addition to giving the Department a better handle on reinsurance treaties, uncollected premiums and managing general agents.

The Department also succeeded in passing CS/HB 1026, which establishes authority for the Department to regulate holding companies and creates stiffer requirements for commercially domiciled insurers, which are foreign insurers that write 55 percent of their premiums in Florida and 25 percent more premiums in Florida than in their home state, effective Oct. 1, 1985.

A related bill, effective upon being signed into law, is CS/SB 490, which requires companies purchasing domestic insurers to notify the Department of the purchase within five days and provides that the purchase is not final until approved by the Department. It also forbids acquiring companies from transferring the insurers' assets until after the purchase is approved by the Department.

The Department succeeded in amending its regulations concerning insurer rehabilitations with the passage of CS/SB 974, effective Oct. 1, 1985, which makes Leon County the appropriate venue for the purposes of issuing rehabilitation orders. It also provides that the Florida Life and Health Guaranty Association (FLAHGA) is not responsible for penalties or interest levied against companies that are covered by the fund.

With the passage of SB 713, the Department changed the criteria by which owners of corporate and commercial vehicles may waive PIP coverage. This bill, which takes effect Oct. 1, 1985, requires owners of these vehicles to put up bonds of \$25,000 per vehicle up to a maximum of \$100,000 and show proof of insurance in excess of that amount to cover minimum PIP expenses of \$50,000/\$100,000/\$25,000; or self-insure by showing proof of \$40,000 of unencumbered net assets for the first vehicle and \$20,000 for each additional vehicle or by complying with rules that will determine the net worth required by each company to cover its risks.

The Department also passed CS/HB 977, effective Oct. 1, 1985, which will enhance the financial security of Multiple Employer Welfare Arrangements (MEWAs), by requiring them to maintain reserves and reinsurance at actuarially sound levels and establish security deposit accounts to act as a cushion in case of insolvency.

The Legislature also established the Department's authority and responsibility for administering insolvencies of allied lines companies, with the passage of CS/SB 734, effective June 20, 1985.

For the first time, the Department received authority to license title insurance agents. Effective Oct. 1, 1985, SB 520 requires that all title agents, except attorneys, be licensed with the Insurance Department.

The Department's general licensing procedure also was changed this year to provide for direct payment of fees to the Educational Testing Service. HB 677 also changes the home service agent's temporary licensing period from two 90-day

periods to a single six month period, and it allows the Department's testing service to set up satellite testing stations in areas that are a distance from the service offices, effective June 18, 1985.

Florida inner-city business owners should have an easier time obtaining insurance with the passage of SB 593, which creates a plan to assist these individuals and businesses in obtaining property and casualty insurance.

State employees who are entitled to temporary disability benefits may be required to perform certain duties if they are medically certified to do so. SB 936, effective July 1, 1985, authorizes state agencies to require light duty of these employees.

HEALTH MAINTENANCE ORGANIZATIONS

Currently HMOs, a \$450 million-a-year business in Florida are the health care providers of choice for more than 530,000 Floridians. This bill, HB 1387, which the Governor signed into law June 17, 1985, will protect the financial health of HMOs and will help resolve common consumer complaints about these providers. From a financial standpoint, the act will raise the surplus requirements and create a sliding surplus for HMOs, which will grow as their liabilities grow and require every HMO to contribute \$10,000 to an expense fund that will allow the Department to rehabilitate failing HMOs quickly. To protect consumers, the act will require HMOs to pay for emergency services rendered outside their areas; require quick enrollment and disenrollment of members; prevent HMOs from disenrolling members on the basis of age or health; and require HMOs to fully inform subscribers of their rights and responsibilities under HMO contracts, effective Oct. 1, 1985.

MEDICAL MALPRACTICE

In response to skyrocketing medical malpractice insurance rates, the Legislature passed HB 1352, which calls for continuing education of physicians, review by hospitals of malpractice incidents by staff doctors, and an overall program of risk management by a wide range of medical facilities. Attorney's fees will be governed by a schedule of contingency fees; a 90-day cooling off period will precede litigation, during which a review process will assess the validity of claims; penalties will be assessed for failure to accept or offer reasonable damages; and judges will have more leeway to adjust damages. All physicians will have to carry a prescribed level of malpractice protection; insurers will have the right to settle claims without agreement of the policyholder; and large claims can be paid off in structured payments over a period of time.

DIVISION OF STATE FIRE MARSHAL

The Department also succeeded in passing HB 465, which allows the Division of State Fire Marshal to continue to regulate fire sprinkler and fire equipment distributors, effective Oct. 1, 1985. Another bill CS/SB 806, eliminates administrative delays in the distribution of arson investigative reports and establishes a \$3 fee for copies, effective Oct. 1, 1985.

DIVISION OF TREASURY

In an effort to reduce overall costs, the Department worked for the passage of SB 1266, which will remove individual leasing agreements, costing between 14 and 28 percent, and allow Florida to use its good credit and tax-exempt financing to get competitive sources of revenue, effective July 1, 1985.

The Department also succeeded in passing its Securities for Public Deposit bill, CS/HB 295, which will limit concentration of public deposits in any one financial institution. Deposits of public funds in out-of-state financial institutions will be limited to 10 percent of deposits taken in their Florida branches, effective Jan. 1, 1986.

Finally, the Department revised its cash managements program with the passage of HB 1227, which allows the Treasury to handle state money that is temporarily idle in ways that are more

profitable. This program establishes clearing accounts in each Florida county to provide same-day collection of funds forwarded by county officials, effective July 1, 1985.

INSURANCE-RELATED BILLS NOT SPONSORED BY THE DEPARTMENT

The Legislature also passed a number of bills which the Department did not sponsor, but which will nonetheless have an impact on insurance regulation and the insurance-buying public.

- HB 740 allows for the direct payment of hospital and medical services to health care providers, effective Oct. 1, 1985.
- HB 984 requires insurers to refund the portion of health insurance that covers an individual after his/her 65th birthday, effective June 14, 1985.
- CS SB 132 provides that certain exceptions are prohibited from being included in title insurance policies, effective Oct. 1, 1985.
- CS SB 235 authorizes the Hospital Cost Containment Board to collect, analyze, monitor and publish nursing homes' financial data, effective July 1, 1985.

- SB 267 prohibits insurers from raising premiums or refusing to renew policies solely because a driver committed a noncriminal traffic infraction, unless it is the second infraction in 18 months or the driver was exceeding the speed limit by more than 15 miles per hour, effective Oct. 1, 1985.

- CS SB 345 authorizes the Department to issue limited licenses to individuals who wish to sell in-transit and storage personal property insurance, effective Oct. 1, 1985.

- SB 402 exempts licensed funeral directors, funeral establishments and direct disposers from requiring that persons selling preneed funeral contracts must be registered with the Department, effective Oct. 1, 1985.

- CS SB 511 removes a prohibition against the licensure of persons on active military duty as health or life insurance agents, effective June 5, 1985.

- CS SB 960 requires insurers to provide premium discounts to persons over 65 who complete a driving safety course approved by the Division of Highway Safety and Motor Vehicles, effective Oct. 1, 1985.

Division of State Fire Marshal

The Division of State Fire Marshal's responsibilities are many and varied. Our primary responsibilities are dictated by the following Florida statutes: Chapter 552, "Manufacture, Distribution and Use of Explosives", Chapter 633, "Fire Prevention and Control", and Chapter 806, "Arson". Several other sections of Florida Statutes prescribe fire code promulgation responsibilities. To fulfill these responsibilities, the Division is divided into four bureaus and one section: Bureau of Fire and Arson Investigation, Bureau of Fire Prevention, Bureau of Fire Standards and Training, Bureau of Explosives and Fire Equipment, and Section of Fire Incident Reporting.

To execute these duties, the Division operates seven field offices and the State Fire College in Ocala. The primary concern of the Division is to save life and property from the devastation of fire. This can be accomplished through our assistance to and involvement in the fire service community, ensuring the protection to the citizens of Florida and promoting an awareness among Floridians in all areas of fire prevention and fire protection.

SECTION OF FIRE INCIDENT REPORTING

The major goal of the Florida Fire Incident Reporting System (FFIRS) is the improvement of fire safety in the State of Florida.

Before we can totally solve the fire problems, we must know what these problems are. Many progressive fire departments have been leading the state in collecting and sharing valuable fire incident data. This sharing helps us find out why, with all of our present technology, we still have so many fire injuries and deaths.

Several fire service programs are currently in operation, however, the efforts directed toward fire incident reporting are by far the most beneficial to the fire service as a whole.

FFIRS is designed to collect valuable pieces of information discovered and recorded at an incident. The system provides a standardized method for reporting information on how, why and where a fire has started. By using a standardized method of reporting a clearer picture of the fire problems can be viewed at the local, county and state levels.

By monitoring all fire reports at a central agency, the opportunity is provided to spot trends in fire causes and losses, equipment or structural component failure and other significant fire problems that are not apparent at the local department level. These problems can then be analyzed and documented, and action can be taken as indicated by the data.

Fire incident report forms are sent to FFIRS by the reporting fire departments. These incidents are computerized and combined with data tapes sent by some of the larger cities in Florida. On a quarterly basis, statewide statistics are compiled by FFIRS for state, county and individual fire departments. This information is sent back to counties and fire departments for use in management at the local level. Today, every successful fire service manager knows that he cannot ignore fire incident analysis. He needs to implement solutions to his fire problems if he is to give the very best service possible to his community.

Fire incident data is used at the state level to support changes in laws and regulations on fire safety.

In addition, a quarterly data tape is sent to the U.S. Fire Administration (USFA) to be included in the national fire data base. Information on the USFA data base is used by the Consumer Product Safety Commission, among others.

008 reports were submitted to FFIRS in June 1980, which was the first month data was collected. In January 1985 over 25,000 incidents were submitted, excluding city fire department data tapes. Data from nearly 150,000 fires has been collected in this time. This information can be studied and analyzed to make Florida a more fire free state.

BUREAU OF FIRE AND ARSON INVESTIGATION

Arson is a concern for all citizens of Florida due to the potential destruction of life and property. The bureau's workload increased 43% from 1979 to 1984. The average dollar loss per arson case for the 1984-85 fiscal year was over \$34,000. In 1974, it was less than \$10,000 per case. During 1984-85, the bureau responded to over 2,800 investigations. Arrests for the crime of arson in Florida from 1979 to 1984 increased over 45%.

Among the Bureau's improvements this year are the development of a Mobile Fire and Arson Investigation Unit, installation of Radio Communications for approximately 40% coverage of the state and automation of the headquarters records with computers. The Mobile Fire and Arson Investigation Unit is being constructed similar to a heavy rescue unit but the design will be specifically for equipment to perform extended investigations of fires. The unit will have portable gas chromatographs, video recording equipment, various electronic hydrocarbon detectors, portable lighting, power generators, power tools, etc. The unit is intended to be utilized on large fire losses. A team from the bureau will respond with the unit and will integrate with local investigative authorities. The unit will be operational in October.

The Bureau also plans to improve its radio communications to 75% coverage of the state this year. This will improve their response time to requests for fire investigations and reduce unnecessary travel time.

A plan is underway for the Bureau to have all eight field offices "on line" with computers by 1986. This will permit a storage and cross referencing of names, addresses, etc., of persons having multiple fires in Florida. The computer system will also permit reports to be generated and transmitted by computer. This will improve management of the Bureau's administrative activities, improve and increase information available to investigators and reduce costs.

FISCAL YEAR JULY 1984 - JUNE 1985

Cases Closed	Arrests	Convictions
Arson	1,041	195
Suspicious	255	
Accidental	778	
Undetermined	615	
TOTAL	2,689	

Requests for Fire Arson Investigations

Citizens: Non-Owners	10
Citizens: Owners	23
County Officials	152
Fire Departments	1,564
Insurance Representatives	101
Police Departments	117
Sheriffs Departments	782
Others	59
TOTAL	2,807

BUREAU OF FIRE STANDARDS AND TRAINING

7 1 84 6 30 85

The Bureau of Fire Standards and Training is the vehicle through which the vast fire service training and education responsibilities of the Division of State Fire Marshal are executed. The Bureau has the responsibility for functions relating to qualifications and standards for employment, training and education of firefighters, certification of fire inspectors, administration of the fire

service educational incentive program, curriculum development and submission of reports and recommendations to the Division of State Fire Marshal concerning the improvement of Fire Service Training and Education.

The Bureau is also responsible for the administration of the Firefighter Educational Compensation program. As of July 1, 1985, there were 1,601 firefighters participating in this program, 290 at the Baccalaureate level and 1,311 at the Associate level. 163 firefighters seeking entry to the program were rejected. The total disbursement of monies through this program for Fiscal Year 1984-85 was \$1,100,000.

The Bureau of Fire Standards and Training is sub-divided into four (4) sections: Standards, Training, Curriculum Development, and Forensic Laboratory.

The Standards Section is responsible for the administration of the Florida firefighters minimum standards training program. This section also reviews the pre-employment paperwork to ensure that the employment was within statutory limits, prepares and administers examinations covering both cognitive and psychomotor skills developed in the minimum standards curriculum, and certifies firefighters, instructors, fire inspectors, and training centers.

Fire Standards Activities

	1984 - 85	Total To Date
<i>Examinations Administered</i>		
Firefighter Minimum Standards	1,527	15,126
Minimum Standards Equivalency	26	562
Forestry Minimum Standards	72	714
30 Hour Volunteer Basic	1,342	6,735
60 Hour Volunteer Advanced	36	169
Volunteer Driver Engineer	0	64
Firefighter I	0	3
Forestry Firefighter I	0	37
Firefighter III	0	27
Municipal Inspector	192	540
Municipal Inspector Equivalency	0	572
Department of Education Inspector	5	117
Health & Rehabilitative Services Insp.	5	69
Instructors	285	1,462
Driver Engineer	0	32
Forestry Artificer	0	88
Re-examinations	189	851
TOTAL	3,679	27,168

	1984 - 85	Total To Date
<i>Certificates Issued</i>		
Compliance	940	14,179
Completion	672	7,119
Forestry Compliance	34	634
Forestry Completion	3	65
30 Hour Basic Volunteer	1,094	5,035
60 Hour Advanced Volunteer	38	160
Municipal Inspector	213	1,129
Municipal Inspector Re-certification	277	305
Department of Education Inspector	9	198
D.O.E. Inspector Re-certification	37	40
Health & Rehabilitative Services Inspector	2	89
H.R.S. Inspector Re-certification	14	26
Hotel & Restaurant Inspector	71	71
Competency	412	1,727
Instructors	342	2,479
TOTAL	4,158	33,266

A Forensic Laboratory is also operated by the Bureau for the purpose of analyzing fire residue to identify if an accelerant is present. During the 1984-85 fiscal year, 828 cases involving 2,123 samples were examined by the laboratory staff. In fiscal year 1984-85, the Forensic Laboratory achieved an overall identification rate of 65%. The laboratory staff is also involved in research and development and in teaching courses for the Fire College.

Professional consultations continue to be a growing function of the Bureau of Fire Standards and Training. This past year the Bureau received a number of requests from municipalities to conduct studies and surveys relative to manpower, site location, equipment, and training needs.

This past year the Curriculum Section has devoted a great deal of time toward Public Education. The Curriculum Specialist has succeeded in implementing the LEARN NOT TO BURN curriculum in two county school systems. The Curriculum Section has also sent representatives to various parts of the State where there is a proliferation of high-rise occupancies. The purpose of these visits was to indoctrinate the occupants of these structures as to what they could do to help themselves in the event of a fire and prior to the arrival of the local fire department. The Curriculum/Public Education Specialist has seen to it that the State Fire College is now authorized to certify C. P. R. Instructors. In the past year, representatives of the Curriculum/Public Education Section have appeared before no less than eleven hundred (1100) people.

The Training Section manages the Florida State Fire College. The Fire College offers courses of instruction and specialty seminars in all facets of fire prevention and suppression, both on campus in Ocala and through training courses conducted at fire departments throughout the State.

BUREAU OF FIRE STANDARDS AND TRAINING TRAINING STATISTICS

7/1/84—6/30/85

BUREAU OF FIRE PREVENTION

The duties and responsibilities of the Bureau of Fire Prevention are set forth in Chapter 633, Florida Statutes, and Sections 393.067, 400.441, 402.305, 509.215, and 526.141, Florida Statutes. These include the following:

- Prevention of fire;
- Storage, sale, use, keeping, manufacturing, handling, or other disposition of combustibles, flammables, crude petroleum or any of its products.
- Installation and maintenance of fire alarm systems and fire extinguishing equipment;
- Construction, maintenance and regulation of fire escapes;
- The means and adequacy of exits from all buildings in the event of fire;
- Inspection of all buildings and equipment on premises within their jurisdiction and if it be found that any building or structure shall

want for repairs, lack of sufficient fire escapes, alarm apparatus, fire extinguishing equipment, dilapidated condition or from any other cause be especially liable to fire, and which is situated so as to endanger life or property, or when they find combustible or explosive matter or flammable conditions dangerous to the safety of such building or to property and life, order same to be removed or remedied. This includes inspections of self-service gasoline stations and state-owned and state-leased buildings at least annually, and other facilities as requested (which includes facilities required to be inspected annually by other state agencies and local government);

g. Inspection of plans for new buildings or significant alterations to existing buildings. (EXCEPTION: The Department of General Services is charged with this responsibility for state-owned and state-leased property; however, this bureau is consistently called upon for help.) The service rendered by this bureau is of real value to the citizens as it saves much money to construct a building properly and not have to make corrections after being built;

h. Establish and maintain fire safety standards for child care facilities, adult congregate living facilities, and other type occupancies, including "uniform" fire safety standards for hospitals, nursing homes, correctional facilities, state-owned and state-leased buildings, migrant labor camps, elevators, public lodging establishments, residential child care facilities self-service gasoline stations;

i. Serve (through the Division Director and the State Fire Marshal) as the final administrative interpreting authority of the State's fire safety standards;

j. Serve as a "service bureau" for architects, engineers, fire protection officials and others. This includes serving as a central reference point and source of information, interpreting technical provisions, sponsoring symposiums, conferences, etc., on fire related matters.

k. Maintain comprehensive records, including copies of fire safety inspection reports of each state-owned and state-leased facility, as well as public schools K-12 and other residential facilities as requested.

There are approximately 700 fire departments consisting of paid and volunteer personnel with which this office works very closely. Also there is a close working relationship with building officials, city officials and insurance company representatives. All of the above-mentioned are working toward a common goal and that is the preservation of lives and property. The Bureau of Fire Prevention works diligently assisting them in their fire safety endeavors and helping them to secure the correction of deficiencies when found. There are occasions when the local fire departments need our help with reference to specific situations and, therefore, they frequently rely on this office for assistance. When a Fire Safety Survey is made by the bureau, a representative of the local fire department is invited to accompany our Fire Protection Specialist. This gives impetus to fire prevention and also gives the local fire department an opportunity to do prefire planning.

The Bureau of Fire Prevention gives priority to the inspection of state-owned and state-leased properties where people are held against their will, such as prisons, and mental institutions. The remaining state properties and private facilities are inspected as time and personnel permit. In addition, blueprints are frequently reviewed to ascertain their compliance with the applicable fire safety standards. A significant amount of time is spent in providing consultation services to architects, engineers, other professional people, and the general public (this service has proved to be exceptionally beneficial to all parties involved).

The following will provide some insight into the scope of activities for this bureau. Please bear in mind that this list is not all-inclusive.

Type Occupancy	Estimated Number of Buildings
Adult Day Care	46
Child Care Facilities	120
Adult Congregate Living Facilities	784
Adult Foster Homes	774
Developmental Service Facilities	546
Child Care Center (6 or more children)	3,261
Correctional Facilities (Jail, etc.)	329
Public Schools/Community Colleges	20,100
State-owned Buildings	10,851
State-leased Buildings	921
Self-Service Gasoline Stations	7,301
TOTAL	45,033

At the present time the bureau has eighteen (18) authorized positions for Fire Protection Specialists, plus a Bureau Chief. The statistics for 1984-85 reflects that these specialists continue to equal or surpass the goals set for the previous year. Please refer to the following table:

Fiscal Year	Fire Safety Inspection of Buildings
July '79 - June '80	10,667
July '80 - June '81	11,759
July '81 - June '82	11,278
July '82 - June '83	11,922
July '83 - June '84	11,950
July '84 - June '85	12,685

It is important to note that records during the past several years show that an average of 228 deaths are caused by fire in Florida each year.

The Bureau of Fire Prevention continued to assist the Department of Corrections with their "follow-up" program on fire safety deficiency corrections in County Jails. Since our involvement in the jail projects in February 1983, more than 83% of the facilities in Florida have corrected fire deficiencies listed by the Fire Protection Specialists, or plans to construct new facilities or renovate existing properties have been implemented. Several counties have submitted detailed documents to resolve outstanding fire violations. Approximately less than 10% of those facilities where no action has been taken are being reviewed by the Department of Legal Affairs for appropriate Administrative Action.

The conducting of Fire Safety Inspections in Public Schools and Community Colleges have been in full process since July, 1983. The bureau has qualified more than 300 fire officials to handle the statutory mandate, including conducting inspections in 3,100 educational plants by Fire Protection Specialists. Additional staff was not provided by the legislature to compliment 20,100 public schools/community colleges. Fire Protection Specialists of the bureau mainly focused on those areas where no certified Fire Officials existed.

A plans review section was established in the bureau in October, 1984. Although the legislature only authorized two individuals (Engineer I and Fire Protection Specialists), our staff was directed to assist in the process to handle the workload. Plans for state-owned facilities require a 30 day completion while state-leased properties must be within 10 days. A monthly listing of the workload is indicated below.

October 1984	30
November 1984	28
December 1984	30
January 1985	34
February 1985	40
March 1985	33
April 1985	47
May 1985	38
June 1985	32
TOTAL	312

Even though budget limitations prevented the bureau from conducting comprehensive staff development and training programs, Fire Protection Specialist, under the coordination of their Lead-workers, attended two staff meetings for their Regional Territories. The staff meetings included discussions on new division and bureau policies, the Florida Statutes, Administrative Rules and Codes and Standards.

Several special accomplishments for the bureau for fiscal year 1984-85 are listed below.

1. Telephone calls and consultation. In round figures approximately 13,000 telephone calls for information and consultation were received during the fiscal year.

2. Rules - adopted and in force.

a. Chapter 4A-38, Uniform Fire Safety Standards for Retarded and Other Developmentally Disabled Persons were developed, adopted and implemented effective July 7, 1984; Amended April, 1985.

b. Chapter 4A-40, Minimum Fire Safety Standards for Adult Congregate Living Facilities were effective July 25, 1984.

3. Rules - awaiting action.

a. Chapter 4A-16, Rule 4A-16.702, Service Stations for non-public use. Changes will permit the use of aboveground Flammable Liquids Storage Tanks. Approximate date of hearing: August, 1985.

b. Chapter 4A-21, Fire Extinguishers and Systems - hearing scheduled June 4, 1985. Significant proposals:

(1) Six year maintenance on extinguishers having 12 year hydro intervals and a new tagging requirement for this maintenance.

(2) Internal tagging of certain extinguishers when opened up for any purpose, including six year maintenance.

(3) Adoption of newer standards - selected sections of NFPA 10 for portable extinguishers; all NFPA standards for systems. Anticipate further revision, perhaps adoption of No. 10, for portables in its entirety at a later date.

4. Chapter 4A-43, Uniform Fire Safety Standards for Public Lodging Establishments. Implementation of Section 509.215, Florida Statutes.

5. Miscellaneous - other than strictly Bureau of Fire Prevention.

a. Task Force - ACLF locked doors.

b. AD HOC committee - Board of Building Codes and Standards reconciliation building fire codes.

A highlight each year continues to be the Annual State-wide Fire Prevention Conference, which has earned an excellent reputation throughout the nation. Internationally known specialists in the fire service field attend and participate in the program. Those who have taken part in this achievement highly praised the educational value of this conference. Additional features of this conference include the announcement of "Fireman of the Year", "Volunteer Fireman of the Year", and "Inspector of the Year", who are chosen on a state-wide basis.

BUREAU OF EXPLOSIVES AND FIRE EQUIPMENT

The Bureau of Explosives and Fire Equipment is responsible for the administration and enforcement of Chapter 552, F.S., "Explosives", and sections of Chapter 633, F.S., concerning licensing, regulation, examining, and training of fire equipment dealers, permit holders, and fire protection system contractors.

As the regulatory agency for the three programs, this Bureau investigates the illegal use and or possession of explosives; investigates the improper installation and servicing of portable fire extinguishers and fire suppression systems; investigates the illegal actions of any fire protection system contractor.

The primary objective of the Bureau is to safeguard the lives and property of the citizens of Florida through the enforcement of laws and regulations concerning explosives and fire protection equipment.

All persons holding licenses, permits, and certificates are qualified by examination regarding the level of expertise in the field of their operation. All persons holding a license and or permit in the fire equipment program are required to be recertified every five years by training and examination. 554 Dealers and Technicians were recertified during 1984.

Licenses Issued

Type and Class	Number Issued
04-05 Manufacturer-Distributor-Explosives	18
06-05 Dealer-Explosives	15
07-06 User-Explosives	351

Investigation of Improper Installations	9
Fire Protection System Contractor Investigation Pending	6
Cases Filed with Legal Division	2
Cases Pending	2

Division of Liquefied Petroleum Gas

The Division of Liquefied Petroleum Gas is responsible for the administration and enforcement of Chapter 527, F.S., entitled "Sale of Liquefied Petroleum Gas." The division is charged by this statute to enforce laws and regulations in the interest of public safety where LP gas is stored, transported, distributed and utilized. The division's public responsibility for LP gas safety begins when the product enters the state borders and continues until the product is safely consumed by the public.

Chapter 527, F.S., provides for state regulation of a highly technical and widely used commodity—liquefied petroleum gas. The unique characteristics of liquefied petroleum gas require a high level of expertise and special laws and regulations. The enforcement of the provisions of this law is essential for the public welfare for protection against loss of property, health and life by fire or explosions. The provisions of Chapter 527, F.S., insure that only competent persons engage in the business and that compliance with acceptable safety codes and standards is achieved.

Chapter 527, F.S., provides for rule making by due process. Under this provision, the division adopts National Fire Protection Association pamphlets for safety. These national standard codes provide the safety guide for the storage, handling and utilization of liquefied petroleum gas, and enforcement of these codes is the responsibility of the Division of Liquefied Petroleum Gas Inspectors.

The division has been certified by the Federal Office of Pipeline Safety to enforce the Pipeline Safety Act as it applies to liquefied petroleum gas pipelines. The pipeline safety program is financed on a 50/50 basis with the U.S. Department of Transportation.

Personnel of the LP Gas Division organize and present safety seminars and workshops on subjects dealing with safe practices wherever LP gas is involved. They also serve local authorities as experts in the field of code interpretation and acceptable LP gas safety practices.

The division rules on the acceptability of proposed plans for the installation of bulk LP gas storage. The division's inspectors follow-up with on-site inspection of construction as to the safety devices required.

Those portions of the business community that benefit from the LP Gas Division activities include architects, plumbing contractors, pipeliners, LP gas appliance manufacturers, and appliance service centers, in addition to the LP gas dealers.

There are nearly 3,000 licenses issued annually through the Division of Liquefied Petroleum Gas. License revenue is the prime

source of the LP gas safety enforcement budget. There are 15 full-time and one part-time positions assigned to this division to serve the state. Personnel are located in West Palm Beach, Orlando, Tampa, Jacksonville and Tallahassee.

The division's responsibility is to promote LP gas safety in the State of Florida for the protection of the public's health, safety and welfare.

Licenses Issued—Fiscal Year 1984-85

Type and Class	Number Issued
4-02 Manufacturer of appliances and equipment for use of LP gas	5
6-01 Dealer in LP gas, in appliances and equipment for use of such gas and installation	545
6-02 Dealer in appliances and equipment for use of LP gas	1,107
6-03 Installation of carburetion equipment	17
6-04 Dealer in LP gas	743
8-03 Installation of appliances and equipment	384
TOTAL ALL LICENSES	2,801

Activities of the LP Gas Division—Fiscal Year 1984-85

1. Bulk Plant Inspections & Reinspections	710
2. Bottle Filler & Motor Fuel Dispensing Stations Inspections and Reinspections	1,131
3. Vehicle Inspections	311
4. Distribution Systems Inspections & Reinspections	676

Insurance Department Summary of the 1985 Legislative Session

We entered the 1985 legislative session armed with an ambitious slate of proposals and convincing arguments for why they should be voted into law. As the session closed, we had more than one cause for celebration. We had scored some significant victories for Florida's consumers. We convinced the Legislature to take a historic step that will save hundreds of young lives, and we succeeded in passing a number of technical changes in the law that will benefit Florida insurance consumers by helping the Insurance Department do its job better.

I. Driving Safety

A. Drink at 21 (SB 1)

The big success of our highway safety package was the passage of a bill to raise Florida's legal drinking age to 21. We have urged the Legislature to take this step for several years now. This year, we were helped by a federal move to withhold highway money from states that fail to raise their drinking ages to 21 by 1987. Some called this blackmail and charged that it violated the concept of states' rights, but we took the position that, like the 55-mile-per-hour speed limit before it, the drinking age issue transcended state lines, as long as young people continued to drive to neighboring states with lower drinking ages in order to drink. We expect this law to save lives and also save money, since the insurance industry estimates that 25 cents of every premium dollar collected is used to pay for losses caused by drunk drivers. The law grandfathered Floridians who turn 19 on or before June 30. Effective date: July 1, 1985.

The following proposals in our driving safety package did not pass:

B. Breathalyzer

This bill would have raised the penalty for refusing to take a blood-alcohol (breathalyzer) test from the current six months to a one-year driver's license suspension, so that it would match the maximum penalty for a first-time DUI conviction. This would have eliminated the incentive for drivers who know they're drunk to try and get a lighter penalty by refusing a blood-alcohol test. Our bill passed the House, before it ran out of time in the Senate in the closing hours of the legislative session. This issue remains a priority for us.

C. Fourth DUI

This bill would have made a fourth DUI conviction a felony. Currently, a driver could be convicted of DUI an infinite number of times, and each offense still would be treated as a misdemeanor. Like the breathalyzer bill, Fourth DUI passed the House and died in the Senate, where it wasn't taken up. This, too, remains a priority.

D. Open container

This bill would have made it illegal for drivers and passengers to carry open containers of alcohol in their cars. Bottles of alcohol with broken seals would have been transported in locked trunks. We felt this bill would have closed a serious loophole in the law—that we penalize drivers for driving drunk, but we allow them to get drunk by drinking and driving. This proposal was voted down as an amendment to another DUI bill in the House.

E. Passive restraints

This bill would have required insurance companies to give drivers of cars equipped with air bags or automatic seat belts a credit (to be set administratively by the Insurance Department) on their auto insurance. This was modeled after a bill passed in New York that resulted in 30 percent rate reductions for owners of cars with passive restraints. This bill died in the Senate, where it was never taken up.

F. Seat Belts

This bill would have required all drivers and front-seat passengers to wear seat belts or face a \$20 fine. The fine was set deliberately so that it would not comply with a U.S. Transportation Department edict that says that if states representing two-thirds of the nation's population pass mandatory seat belt laws by 1987, the DOT will notify an order to U.S. automakers to install passive restraints in all U.S. cars by 1989. The bill passed all committees in both the House and the Senate but was shouted down on the floor of the Senate. Still, the bill came closer to passing than ever before. The issue received a great deal of media coverage and editorial support. It sparked some meaningful discussions and probably increased the level of seat belt use in the state. This remains a priority for us and will certainly return next year.

Two particularly significant victories were scored for consumers on the insurance and health care fronts.

The investment Floridians place in insurance premiums will be safer in coming years with the passage of a bill designed to help keep insurance companies financially healthy.

In addition, Florida health care consumers can feel more secure about purchasing their health care from health maintenance organizations, thanks to a bill that regulates the solvency of HMOs and addresses most of the common consumer complaints about these alternative providers.

II. Insurance company solvency (SB 973)

When an insurance company fails, consumers inevitably get hurt. This bill was created to help minimize insolvencies by giving the Insurance Department more flexibility and authority to monitor the financial health of insurance companies. Effective date: Oct. 1, 1985. Here is a rundown of the most important aspects of the bill, which was a cornerstone of our legislative package.

1. Requires every insurer licensed to do business in Florida to submit an independent Certified Public Accountant's audit of its assets and liabilities to the Insurance Department every year. Currently, companies file only their annual statements. This provision would require them to file both.

2. Requires all insurers that do business in Florida to submit their annual financial statements to the National Association of Insurance Commissioners (NAIC) so the NAIC can subject the statements to a battery of solvency tests. This provision would provide us with better insight into the financial condition of companies located in other states, so that we won't have to rely primarily on the judgments of regulators in the companies' home states.

3. Increases the surplus, capitalization and deposit requirements of domestic insurers.

4. Requires insurers to file copies of non-facultative reinsurance treaties with the Insurance Department within 30 days of the date they are received by the insurer.

5. Refuses to allow insurers that are controlled by an insurance agency or that control an insurance agency to count uncollected premiums as assets unless they are held in trust accounts or unless they can produce a letter of credit or guaranty bond in the amount of the premiums. This provision would prohibit an insurer from inflating its assets and exaggerating its financial health by claiming premiums it may be unable to collect.

6. Requires that persons performing the functions of a managing general agent for an insurance company be licensed with the Insurance Department as managing general agents. This law states that the insurer is responsible for all acts committed by its MGA.

III. HMO regulation (HB 1387)

Currently, HMOs, a \$450-million-a-year business in Florida, are the health care providers of choice for more than 530,000 Floridians. In many ways, they have been a good thing for Florida—injecting competition into the health care delivery system and helping to hold costs down. This legislation, another cornerstone of our legislative package, is designed to make sure they remain a good thing. Effective date: Oct. 1, 1985. This bill will:

1. Require HMOs to fully inform subscribers of their rights and responsibilities under HMO contracts and require that the contracts are written in clear language and are delivered to subscribers promptly.

2. Require quick enrollment and disenrollment of subscribers and prevent HMOs from disenrolling subscribers on the basis of age or state of health.

3. Give the Insurance Department authority to take immediate and strong action against HMOs that operate illegally and make it a third-degree felony to operate an unlicensed HMO. The violation currently is a misdemeanor.

4. Require HMOs to provide subscribers with a list of the HMO's primary care physicians and hospitals.

5. Require HMOs to provide to the Department of Health and Rehabilitative Services that they are equipped to provide quality care in new geographic areas before expanding into those areas.

6. Give HHS access to medical records of HMO subscribers, allowing it to more accurately monitor the quality of care HMOs provide.

7. Require every HMO to contribute \$10,000 to an expense fund that would allow the Insurance Department to rehabilitate failing HMOs quickly.

8. Require HMOs to distribute a buyer's guide for Medicare beneficiaries, listing the pros and cons of HMO membership. The guide would be prepared by the Insurance Department.

9. Raise the surplus requirements of HMOs to \$100,000 or 5 percent of an HMO's total liability, whichever is greater, and increase the amount of surplus required as an HMO's liabilities increase, making sure the HMO can cover unexpected increases in its bills. The current surplus requirement is \$100,000 for all HMOs.

10. Requires HMOs to pay for emergency services rendered outside of their service areas, to define in subscriber contracts what qualifies as an emergency and to give examples of them.

IV. Other insurance legislation

Following is a summary of other insurance-related legislation that the Insurance Department either generated or supported, which passed this session.

A. Holding company (CS HB 1026)

This law establishes the classification of commercially domiciled insurers, which are foreign insurers that write more than 55 percent of their premiums in Florida and that write 25 percent more premiums in Florida than in their home states. The law requires commercially domiciled insurers to follow the same investment safeguards that are required of domestic insurers. It also gives the Insurance Department authority to regulate holding companies according to rules to be established by the department. A holding company is a company that owns more than one insurer, an insurer that owns another insurer or an insurer owned by another corporate entity. Effective date: Oct. 1, 1985.

B. Acquisitions (CS SB 490)

This law is designed to clear up a Constitutional question raised about our previous acquisition law, which required companies purchasing domestic insurers to notify the Insurance Department 60 days prior to the purchase. The federal court ruled that this prior approval requirement placed the acquiring company at an unfair disadvantage. This law amends our acquisition law to require companies purchasing domestic insurers to notify the Insurance Department within five days after the purchase and provides that the transaction is not final until after it is approved by the department. The bill also forbids the acquiring company from transferring any of the insurer's assets until after the purchase is approved by the department. Effective upon becoming law.

C. Rehabilitation (CS SB 974)

This law will clean up some technical problems in the law and instituted two noteworthy changes.

1. It made Leon County the appropriate venue for all delinquency actions. Previously, the department could have all seizure orders issued in Leon County, but rehabilitation orders could be issued either in Leon or in the company's home county. As a result, valuable time that could have been better spent rehabilitating companies was lost fighting over proper venue. This law will change that.

2. It provides that the Florida Life and Health Insurance Guaranty Association (FLHIGA) is not responsible for any penalties or interest levied against companies that are covered by the fund. Until now, other states have been able to levy punitive damages or charge interest to companies that go under, and FLHIGA was forced to pay the tab. We felt that this money was better spent paying claims and returning unused premiums to policyholders. The Florida Insurance Guaranty Association (FIGA) already has this protection. Effective date: Oct. 1, 1985.

D. Self-insurers (SB 713)

Before this law passed, drivers were able to waive the requirement to carry PIP insurance by meeting one of two criteria: 1. They may post a cash bond of \$25,000, or 2. They may self-insure by proving they have \$40,000 in unencumbered net assets. Unfortunately, some cab companies were taking advantage of the old law by self-insuring an entire fleet of cabs by showing unencumbered net assets of only \$40,000. This bill changes the criteria for corporate and commercial vehicles by offering two options to obtaining PIP coverage.

1. Put up a bond of \$25,000 per vehicle up to a maximum of \$100,000 and show proof of insurance in excess of that amount to cover minimum PIP expenses of \$50,000/\$100,000/\$25,000, or

2. Self-insure by showing proof of \$40,000 in unencumbered net assets for the first vehicle and \$20,000 for each additional vehicle or by meeting rules to be set by the Department of Highway Safety and Motor Vehicles in conjunction with the Insurance Department determining the net worth required by each company to cover its risks based on actuarially sound data. Effective date: Oct. 1, 1985.

E. MEWA (CS HB 977)

Currently, 19 multiple employer welfare arrangements (MEWAs) are licensed in Florida, and they provide health insurance to more than 83,000 Floridians. This bill will protect these citizens by increasing the likelihood that the MEWAs will remain financially able to pay the medical bills of the Floridians they cover. The bill requires that MEWAs maintain reserves and reinsurance at levels determined in accordance with sound actuarial principles. In addition, each MEWA is required to set up a security deposit account, which would be used to pay claims and expenses if the arrangement becomes insolvent. The amount will be based on the amount of the MEWA's claim costs but will not exceed \$100,000. The bill also requires each MEWA to have an actuarial study performed at least once every three years, and it clarifies the Insurance Department's authority to take action against people operating a MEWA without a license. Effective date: Oct. 1, 1985.

F. Bankruptcy (CS SB 734)

This law was written primarily to send a message to federal bankruptcy court that it is the Florida Legislature's intent to give the Insurance Department authority and responsibility for administering insolvencies of allied lines companies, such as service, home and auto warranty companies, pre-paid funeral arrangements, etc. This was a technical change designed to clear up confusion in the law. Effective upon becoming law.

G. Title agents (SB 520)

This law requires title insurance agents to be licensed by the Insurance Department, with the exception of attorneys, who are exempted. It empowers the Insurance Department to impose administrative fines or to suspend or revoke the licenses of title agents who violate the law, and allows the department to impose penalties on insurers for violations by their attorney title agents. The bill also requires title agents to hold all funds received in a fiduciary capacity in trust accounts. Effective date: Oct. 1, 1985.

H. Medical Malpractice (HB 1352)

This law calls for continuing education for physicians, review by hospitals of malpractice incidents by staff doctors, and an overall program of risk management by a wide range of medical facilities. Attorneys' fees will be governed by a schedule of contingency fees, a 90-day period will precede litigation during which a review process will assess the validity of claims, penalties will be assessed for failure to accept or offer reasonable damages, and judges will have more leeway to adjust damages. All physicians will have to carry a prescribed level of malpractice protection; insurers will have the right to settle claims without the agreement of the policyholder, and large claims can be paid off in structured payments over a period of time. Effective date: Oct. 1, 1985.

I. Agents' Licensing and Testing (HB 677)

This law streamlines the licensing process by providing for direct payment to the testing service, thereby eliminating several days' delay. It changes the home service agent's temporary licensing period from two 90-day periods to a single six-month period, and it allows our testing service to set up satellite testing stations in areas outside the service offices.

J. Market Assistance Plan (SB 593)

This law requires the adoption of a plan to assist individuals and businesses in obtaining property and casualty insurance. The market assistance plan is to be governed by a seven-member Board of Governors appointed by the Insurance Commissioner and funded and staffed by the participating insurers. All property and casualty insurers licensed in Florida are required to participate in the plan. Any fee charged by the plan must be reasonable, approved by the department and earned only upon the successful placement of risk. Homeowners, tenants and businesses in inner city areas or high crime areas who encounter problems in obtaining insurance will benefit from this law. In 1982, the Behavioral Science Research Institute conducted a study of the cost and availability of property insurance in the Liberty City and Overton districts of Miami. The survey of 500 businesses in those areas found that 25 percent of those surveyed did not have insurance. Of this 25 percent, about half had tried unsuccessfully to obtain insurance, while the other half had made little or no effort to find coverage. Thus, 12 or 13 percent of businesses in these and similar areas may be unable to obtain property insurance, and these are most likely to be small businesses. Effective date: Oct. 1, 1985.

K. Minority Business Act (CS SB 1150)

The Small and Minority Business Assistance Act of 1985 creates various mechanisms to encourage the growth and participation of small and minority businesses in the state economy. Effective date: Oct. 1, 1985. Several mechanisms were created by the law, including:

1. A goal of spending 15 percent of state funds with minority businesses.
2. The creation of a Small and Minority Business Advisory Council within the Department of Commerce to serve as a liaison between small businesses and government.
3. A requirement directing state agencies to disseminate contract bid information.
4. The prompt payment by state agencies of vendor invoices.

L. Workers' Compensation (SB 936)

Authorizes state agencies to require employees who are entitled to temporary disability benefits to perform certain alternate duties whether or not an established position for such duties exists, if those duties are permissible under that disability under medical certification. Effective date: July 1, 1985.

V. Successful Legislation initiated by the Division of State Fire Marshal

A. Regulatory Reform - Sunset Act (HB 465)

This law allows the Division of State Fire Marshal to continue to regulate fire sprinkler and fire equipment distributors, effective Oct. 1, 1985. The Legislature denied the portion of the bill that authorizes the division to regulate fire alarm installers.

B. \$3 Fee for F & A Report (CS SB 806)

This bill eliminates administrative delays for the distribution of arson investigative reports and establishes a \$3 fee for copies. Effective date: Oct. 1, 1985.

VI. Successful legislation initiated by the Treasury

A. Commodity Procurement (SB 1266)

Also known as Governmental Operations Oversight Project. This project will actually be operated by the Comptroller, but we initiated it. It gives Florida the opportunity to reduce overall costs by removing individual leasing agreements, which cost 14 to 28 percent, and allows Florida to use its good credit and its tax-exempt financing to get competitive sources of revenue. Effective date: July 1, 1985.

B. Securities for Public Deposit (SB 1266)

Under this law, concentration of public deposits in any one financial institution will be limited. Deposits of public funds in out-of-state financial institutions will be limited to 10 percent of deposits taken in their Florida branches. Effective date: Jan. 1, 1986.

C. Cash Management Program (HB 1227)

This law provides for the more profitable handling by the Treasury of state money that is temporarily idle. One of the most important elements of this program is the establishment of clearing accounts in each Florida county to provide same-day collection of funds forwarded by county officials. It also provides for Intermediate Term Note, a liquidity management instrument which allows us to develop liquidity when we need it for payouts on a given date. It also enhances state nontax revenues. Effective date: July 1, 1985.

VII. DOI bills that failed to pass

A. Interest on Excess profits

This bill would have required insurance companies to pay interest earned on excess profits from the time a company is ordered to return them, throughout the appeals process, until a decision is reached and the profits are actually paid. The bill died in the House, where it was never taken up. Apparently, the Legislature didn't want to tamper with the excess profits law, now that it has passed so many legal tests, only to have it tested all over again. We probably will take this bill up again next session.

B. Police and Firefighters' Fund

This bill would have raised the retirement benefits of municipal police officers and fire fighters to equal the benefits offered under the Florida Retirement System. It also would have revised the Municipal Police Officers and Fire Fighters Retirement Fund's Board of Trustees to give more representation to officers and fire fighters and less to cities. The bill passed the House and two Senate committees, but died for lack of attention on the Senate floor.

C. Fraud Investigators' Bill

This bill would have permitted Insurance Department fraud investigators to carry firearms in the performance of their duties. This was the fourth year the bill was presented to the Legislature and the fourth year it failed.

D. Fire College Bill

This bill would have appropriated \$435,000 from the Insurance Commissioner's Regulatory Trust Fund for fiscal year 1985-86 and \$8.6 million to plan, construct and equip a new Fire College to be located in Marion County. (NOTE: Although this bill failed, the division was successful in getting this appropriation in the

department's regular budget. The Legislature also released \$735,000 to hire a design professional to begin drafting plans for a new fire college.)

D. Crime Insurance

Currently, the Florida Crimes Compensation Act provides that certain victims of crime or surviving members of deceased victims' families are eligible for awards of up to \$10,000 from the Bureau of Crime Compensation under the Department of Labor. The decision to grant an award is based on the "actual need" of the claimant. This law would have extended eligibility for compensation, allowed the compensation of "out-of-pocket" loss, created an Office of Comprehensive Crime Victims Services within the Labor Department, and enabled the state to receive grant money from the federal government by bringing Florida's Crimes Compensation Act into compliance with the federal "Victims of Crime Act of 1984." A related bill that would have eliminated a demonstration by the claimant of actual need and raised the maximum award to \$25,000 did not pass.

Summary of other relevant legislation

Health care advertising - HB 100. This bill amended an act concerning the advertisement of free health-care services to include discounted or reduced-fee services. The law requires ads for free or discounted services to include a statement that patients may refuse to pay, cancel payment or be reimbursed for services performed within 72 hours after their response to the ad. Effective May 8, 1985.

Building construction standards - HB 116. State agencies or local governments which regulate construction, alteration, repair or demolition must adopt one of the standardized building codes specified in this act. New language in the act allows state agencies to make agreements with other governmental units for enforcement of building codes. Effective Oct. 1, 1985.

Direct pay for health insurers - HB 740. This bill requires insurance companies to make payment directly to a hospital or physician if the insured requests such direct payment on a claim form. Effective Oct. 1, 1985.

Mortgage insurance - HB 822. This bill amends criteria for home equity conversion mortgages and changes terms for recovery under the home equity conversion mortgage guaranty fund. That fund is established by the state treasury but administered by the Florida Housing Finance Agency. Effective Oct. 1, 1985.

Refunding Health Premiums - HB 984. This act requires insurers to refund premiums paid by insurers for coverage beyond their 65th birthdays. Effective upon becoming law.

Title insurance - SB 132. This bill prohibits title insurance policies from making exclusions for disputes not identified in a certified property survey, rights or claims not shown in public records even though the seller may swear there are no claims on the property or any lien for improvements made on the property within 90 days of closing. Effective May 24, 1985.

Nursing homes - SB 235. This act requires the Hospital Cost Containment Board to begin monitoring nursing home financial information, rates charged and patient demographics. The HCCB will be required to print information on costs similar to that currently published for hospitals. Effective July 1, 1985.

Non-criminal traffic infractions - SB 267. This act prohibits companies from surcharging or refusing to renew vehicle liability insurance solely because the insured has been found guilty of a traffic violation other than drunk driving or driving more than 15 miles per hour over the speed limit once in 18 months. Effective Oct. 1, 1985.

Limited Licenses - SB 345. This allows the department to issue limited licenses to people who rent moving equipment, allowing them to insure personal property which is being moved or stored. Effective Oct. 1, 1985.

Pre-need funeral merchandise - SB 402. This section was amended to allow licensed funeral directors, funeral establishments or direct disposers to sell funeral arrangement and supply contracts before death without being registered. It also increases the registration fee to sell funeral merchandise before death from \$50 to \$100. Effective Oct. 1, 1985.

Pharmacists PPO - SB 427. This section was amended to allow pharmacists to negotiate contracts with an insurer or group of insurers for alternative rates of payment. Effective upon becoming law.

Bail bondsmen - SB 508. This section was amended to specify that arrest bond certificates issued by auto clubs are traffic arrest bonds. It increases the maximum bond amount from \$200 to \$500, authorizes surety insurers to execute bail bonds for auto club members, requires guaranteed arrest bond certificates to be accepted as bail up to \$500 for traffic violations other than drunk driving or felonies and requires auto clubs to file the names of licensed general lines agents permitted to execute bonds for club members. Effective May 30, 1985.

Health and Life sold by military personnel - SB 511. This section was amended to allow military personnel to be licensed as health or life agents. It requires such agents to maintain records at a location other than a military installation for public availability, and prohibits such an agent from selling policies to someone on active military duty if the buyer is of a lower rank or pay grade than the agent. Effective upon becoming law.

Coordination of benefits - SB 960. This section was changed to require benefits from a plan that covers the person as an employee, member or subscriber to be considered before benefits from a plan which covers the person as a dependent are payable. It also provides rules for determining benefit priorities for children covered by more than one policy whether their parents are married or divorced. Effective Oct. 1, 1985.

Policy binder - SB 961. This section was amended to allow cancellation of a binder with only five days notice unless the binder is replaced by a policy or another binder. It also states that no notice of cancellation is required for binders of less than 60 days. The section is also amended so that the definition of policy does not include binders unless the duration of the binder exceeds 60 days. Effective May 30, 1985.

INSURANCE DEPARTMENT SERVICE OFFICE OPERATIONS

The Insurance Department has in operation a Bureau Headquarters Office in Tallahassee and six field Service Offices in order to offer localized insurance consumer services to the public in designated areas throughout the State. During the calendar year 1984, the field operations assisted Florida citizens and others on 189,928 complaints, claims and inquiries resulting in adjustments paid to claimants totaling \$31,705,316. The Insurance Consumer Hotline in the Tallahassee headquarters provides greater access to the Insurance Department to assist the public with insurance inquiries and complaints. During 1984, a total of 56,284 telephone calls were handled. The locations of our Tallahassee Field Operations and the Service Offices are as follows:

Tampa Service Office
Hillsborough County Regional Service Center
1313 N. Tampa St., Suite 809
Tampa, FL 33602
Telephone: (813) 272-2330

West Palm Beach Service Office
Palm Beach Regional Service Center
111 Georgia Avenue, Suite 209
West Palm Beach, FL 33401
Telephone: (305) 837-5045

Pensacola Service Office
Escambia County Regional Service Center
160 Governmental Center, Suite 515
Pensacola, FL 32501
Telephone: (904) 436-8440

Miami Service Office
Dade County Regional Service Center
401 NW 2nd Avenue, Room 750
Miami, FL 33128
Telephone: (305) 377-5235

Orlando Service Office
State Regional Service Center
400 W. Robinson St., Suite 401
Orlando, FL 32801
Telephone: (305) 423-6105

Jacksonville Service Office
Duval County Regional Service Center
Box 40, Suite 140
111 Coastline Drive, East
Jacksonville, FL 32202
Telephone: (904) 359-6146

Bureau of Field Operations
Room 334, J. Edwin Larson Building
Tallahassee, FL 32301
Telephone No.: (904) 488-0030

INSURANCE EXCHANGE OF THE AMERICAS, INC.

The Insurance Exchange of the Americas, Inc. is established under the authority of Section 629.401, F.S. The Insurance Exchange is an insurance facility patterned after Lloyds of London, where specialized kinds of insurance business can be transacted. Members of the Exchange include underwriting members and broker members. Brokers bring various kinds of insurance risks, as permitted by statute, to the Exchange where underwriting members provide insurance for the risks. The following syndicates are members of the Insurance Exchange of the Americas:
